Dogs and cats have many different coat types and colours.

This chart will help us to use the best combination of cosmetics during bathing and brushing, according to the type of coat, color and the condition in which the pet arrives at the grooming salon.

The shampoo should always be applied twice for a thorough clean and to get best results from the properties of each product.

Conditioner should be applied after shampooing.

Please note there are also instances when we can combine different products for the best results.

COMPLEMENTS  
NATURE COLLECTION

**Pop**  
Foam Handle for Tools

This accessory complements the Nature Collection family. "Pop" it onto the handle of any of the Nature Collection tools for a more comfortable, non-slip grip on the tool while working. It also reduces fatigue thanks to its padding that avoids an overexertion of grip in hard work.

**INSTRUCTIONS FOR USE:** Lubricate the inside of the hole with a conditioner or oil. Place the handle in the hole and ease it up to the top. As soon as the lubricant dries, the POP handle grip will be well fixed.

# Clothing measurements

## KNOW YOUR MEASUREMENTS

When purchasing a piece of Artero workwear it is very important to know your measurements so that you choose the correct size for you. Please refer to the following charts to determine your exact size.

### WHAT SHOULD I MEASURE? CHEST, WAIST AND HIPS

In order to measure correctly, hold the tape-measure loosely and horizontally, and wrap round the relevant part of your body. It helps to do this in front of a mirror, and it is best not to have any loose-fitting clothes on when you measure.

For smocks, shirts and t-shirts, you should measure:

**CHEST:** Measure around the body at the most prominent point of the chest and back. Just below the armpit.

**WAIST:** Measure round your waist quite tightly.

**HIP:** Measure round the widest part of the hip.

# ARTERO

STYLING TEAM

**MICHELLE BREEN**

Grooming, to me, is the opportunity to bring out the best in each animal that I have the opportunity to work with, and competing is an extension of that, fueling the drive to constantly improve my craft.

**LINDSEY DICKEN**

Grooming for me is the opportunity to combine my love of art with my love for dogs, and to help dogs feel their best. When I compete, it's a chance to test my skills against the best in the industry, but at the end of the day it's a competition against myself and it drives me to become the best I can.

**GRACE ADRIANI**

Handstripping is my favorite grooming technique. I enjoy the challenge it presents and am glad to see that it is growing in popularity. I strive to always keep learning and improving. Becoming a competition groomer has allowed me to continue to learn and hone my grooming skills.
